HANVO

METALQ

FILAMENT FIBER GLOVES

MetalQ™

MetalQ™ represents Hanvo's high-strength filament fiber Gloves. Filament fiber gloves are specially knitted with high-tenacity composite yarns that is stronger than steel on an equal-weight basis. The **MetalQ™** series, featuring lint-free, cut resistance and dexterity with high tactile sensitivity. We now offer a full range of cut resistant filament fiber gloves from A2-A5, 15G and 18G.

1. Lint-free, silky touch

Lint-free surfacepoking feeling. The filament fiber is incorporated in a way that it cannot come through to the hand for total comfort and durability.

Staple Fiber

Filament Fiber

2. High-strength, High-tenacity

Continuous filament yarn is stronger than steel on an equal-weight basis. So it can reach an unbeatable cut resistance and dexterity without combining steel or glass fibers.
